

POSITION DESCRIPTION

Title: **Graduate Geologist**

Reports to: VP Exploration / VP Corporate Development

Location: Vancouver, Canada

Start Date: April 2021

GR Silver Mining Limited (“GR Silver” or the “Company”) is headquartered in Vancouver, Canada, with operations in Mexico. The Company employs over 100 people directly and indirectly and is listed on the TSX.V.

The Graduate Geologist works at the Vancouver headquarter of GR Silver and reports to the VP Exploration and VP Corporate Development.

She / he will support GR Silver’s new initiatives and deliver crucial work by managing databases and GIS projects which are part of the large concession and project portfolio of GR Silver in the Rosario Mining District in Sinaloa, Mexico. The successful candidate will have opportunity to contribute to generative work and provide support to operational programs in the field from Vancouver, as well as support the needs of corporate development and public relation work. This position is an excellent opportunity for an interested geologist to work closely with members of the executive team and learn the inner workings of an emerging explorer.

Primary Responsibilities:

- Manage operational datasets that the company generates, and organize and validate historic data
- Create GIS projects and develop spatial datasets that can be used to create value for the company
- Support generative work and targeting efforts using geochemical, geophysical, and other datasets available
- Coordinate consultants that work for GR Silver at times providing specialized services
- Support corporate development and investor relationship work by producing technical material used for public disclosure

Candidate Profile:

- Undergraduate or advanced degree in geology or similar
- 1-2 years of working experience or summer work in mining / exploration camps with logging and sampling experience (preferred)
- Solid understanding of GIS applications (ArcGIS), and handling of exploration data, preferentially with some experience in QAQC, specialized database management software and 3D modelling.
- Excellent communications skills (speaking and writing), ideally with knowledge of Spanish
- A strong attention to detail with an organized personality and diligent work ethic
- Flexibility and willingness to work at times on last minute assignments with tight deadlines
- Sound understanding of exploration work, economic geology, and deposit models

In return, you can expect to:

- Gain experience working closely with the executive team of an emerging exploration company
- Competitive remuneration
- Have strong support for technical and geologic training / development options
- Opportunity to get field experience in Mexico if desired

GR Silver provides equal opportunities for all applicants and is committed to fostering an inclusive, accessible environment, where all employees feel valued, respected and supported throughout the recruitment and employment process.

Interested candidates are invited to send a full application with CV and motivation letter to info@grsilvermining.com with the job title in the email subject line. Application deadline is April 30. The position will be filled ASAP.
