## **GR Silver Mining Announces Private Placement Repricing**

**Vancouver, BC – GR Silver Mining Ltd.** (“GR Silver Mining” or the “Company”) (TSXV|GRSL, OTCQB|GRSLF, FRANKFURT|GPE) – announces that it has repriced the non-brokered private placement of units (each, a “Unit”) for gross proceeds of up to \$1 million (the “Offering”), previously announced July 11. The price per Unit has been repriced from \$0.075 to \$0.05 per Unit. Each Unit will consist of one common share of the Company and one-half (½) of one common share purchase warrant. Under the new terms, each whole warrant will entitle the holder to purchase one common share of the Company at a price of \$0.08, reduced from \$0.12, at any time on or before that date which is 24 months after the closing date of the Offering.

The gross proceeds received from the sale of the Units will be used for the advancement of studies on the Company’s Plomosas Project and for general working capital.

The Units will be offered to qualified investors in reliance upon exemptions from the prospectus and registration requirements of applicable securities legislation. The Company will pay finders’ fees to eligible finders in connection with the Offering, subject to compliance with applicable securities laws and the policies of the TSXV.

All securities issued and sold under the Offering will be subject to a hold period expiring four months and one day from their date of issuance. Completion of the Offering and the payment of any finders’ fees remain subject to the receipt of all necessary regulatory approvals, including the approval of the TSXV.

*This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States of America. The securities have not been and will not be registered under the United States Securities Act of 1933 (the “1933 Act”) or any state securities laws and may not be offered or sold within the United States or to U.S. Persons (as defined in the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration is available.*

### **About the Plomosas Project**

The Plomosas Project, including the recent high-grade silver SE Area discovery in the San Marcial Area, is an emerging high-grade silver district located in southern Sinaloa, Mexico. The Plomosas Project, covering 43,187 ha, benefits from mine infrastructure, road access, and existing permits associated with past-producing historical mining sites. The district contains intermediate to low sulphidation epithermal silver and gold mineralization hosted in hydrothermal breccias and veins. Recent success in exploration and drilling has delineated wide, high-grade, shallow hydrothermal breccias in the San Marcial Area, including the SE Area discovery, where drilling incorporated into the updated March 2023 Plomosas Project mineral resource estimation highlighted an exploration opportunity for continuous resource growth.
